

Buck Radio Control Club Board Meeting

Date: June 26, 2005
Meeting Time : 3:00pm
Location: Club field

The meeting was held at the club field. After flying, we held a club meeting and then a planning meeting for Fun in the Sun.

Thank You

A special thank you goes out to Bruce Prestidge and Twin Locust Barns for our new shed, THANKS BRUCE!

Flight Training

Soloed - Since our last meeting, we have had five people training at the field!

Old Business

Club Membership:

The club membership is now up to 41. This is the largest membership the club has ever had.

The Treasurer's Report – Balance is \$265.32.

Club Applications – We could use some more print outs of the club applications which are on the web site, preferably in color.

Siding – Because of the low balance of our account, we are putting off installing T-111 siding on the back of the pavilion until our funds increase. The estimated cost of the siding is \$200.00.

Frequency Board – Karl Bears will be building a new frequency board. Jim will send him a design.

Web Site – The official club web site www.buckrc.com continues to grow and gain traffic. Note that all of the club's documents are available online.

Storage Shed – Thanks to Bruce for fixing and painting the new storage shed. Jim and John will be reinforcing the sides of the pad. We are investigating building a ramp, or buying one so that we can get the tractor up inside the shed.

Field Maintenance – The field looks terrific! People are continuing to volunteer to clean up and cut grass, thanks goes out to all who are donating their time and equipment.

The washout in the driveway was repaired quickly with the drainage pipe taken out and re-installed. The club would like to do something a bit more permanent. We could use some additional stone, but cannot afford it at this time. Ideas are welcome.

A recycle barrel was placed at the field per Andy's suggestion.

New Business

Field – We are continuing to get compliments about how good the field looks. NICE!!!

Club Trainer – John Robbins and Jim Langley have a Sig LT-40 for use in training new flier at the field. This will be John's airplane, but will be available for anyone to learn to fly.

Youth Awareness Day – Based on a request from the Quarryville Boy Scouts, this has been moved to September. We will setup two simulators, give demonstrations and let some try to fly on a buddy box. Price will take care of this upon his return from Georgia.

Newsletter – The next quarter newsletter will go out in July. It will be delivered via email except for 5 members, which will receive it by standard mail. This will cut down on unnecessary costs.

FLYRC Photo Shoot – XFC & Unlimited IMAC flier Chris Maier came with his friend Blair and Jim Langley to test and fly the 37% Ultimate for the FLYRC magazine photo shoot. Chris is a ton of fun and dazzled everyone with his superb flying skills. We got the club field in several shots..

Note: The FLY RC article is now out in the stores and shows the club field. They cut out the banner, but at least our field is getting exposure. You can pick up the issue in WalMart.

AMA Membership – Nothing new here.

Meeting was adjourned at 4:15 P.M

Special Note:

A special meeting was held to plan for Fun in the Sun:

The following people have volunteered to head up function teams for Fun in the Sun:

Jim Langley	Contest Director/Event Coordinator
Karl Beers	Competition
Price Stevenson	Sound
Bruce Prestidge	Cleanup
George Soresina	Food
Nancy Prestidge	
John Robbins	Registration
Ron Hayes	Impound
Jim & John	Flight simulator and training
Boy Scouts?	Parking

Please contact Jim, or any of the people listed above to help out.

The agenda for the day was set to the following:

8:30am	Open registration
9:45am	Pilot meeting
10:00am	Open Fly
12:00pm	Lunch and halftime entertainment – Skydiver, Chris Maier
12:45pm	Fun Fly competition
3:00pm	Open Fly
4:00pm	Impound closes. People can continue to fly under standard club rules.

It was agreed to move the flea market down to the field. It was also agreed that people could sell anything at the tables. Cost is \$10.00 per table and we have sold seven so far.
