

Buck R/C Club Meeting

8/28/2005
Club Field

Meeting called by: Ron Hayes
Type of meeting: Monthly Meeting
Note taker: Ron Hayes

Treasurer's Report: Presently there is \$826.36 in the checking account, with \$510 from the "Fun In The Sun Fly".

Club Members: We presently have 38 members in the club with the newest addition of Isaac Metzler.

Agenda

OLD BUSINESS:

1. Siding-With the present money in the treasury we can install the siding on the back side of the pavilion.
2. Frequency Board-Still need to be built. Cloud Kings does not have a new board so I will be designing one. The present design will be 60 slots, 30 on a side.
3. Field-So far we have been able to maintain the field with volunteers. This is great! Thank you one and all for all your hard work. It takes many people to make this club run. The field looks great!
4. Web Site-If you have had a chance to look at our web site. You can see that it has grown by leaps and bounds.
5. The Fun in the Sun Fly was a great success. We have to give Atta Boys to all that helped make it a great success. I want to especially commend all the volunteers on how well they worked as a team. Every one doing their jobs very well and when they saw a job that needed to be doing they just stepped right up and did it. WELL DONE!

This may be a little risky and I don't want to put off any one in our club, but I feel that it would be a bigger mistake to not commend Jim Langley for all his hard work and organization with the Fun Fly. It wouldn't have happened without him.

NEW Business:

1. Flying Tables, Bruce Prestidge has found a volunteer to cut the pieces to make the tables. We can supply him with the wood he needs. WE will be able to assemble them at the field.
2. Youth Awareness Day-Has been moved to September 10th. Jim will want to talk about this. Emails will be forth coming.
3. Membership-We are continuing our membership drive. The field is still under utilized and we are not feeling crowded yet so we shall continue to seek and recruit new members.

Additional Information

**Additional
Business**

Adjourn

NOTES

Item #1. John Shoop, suggested that instead of install a wall with doors that we put a wall up with large awing type windows that could be raised on the North side of the pavilion. These would be easier to install and should provide good ventilation. There is limited clearance behind the pavilion.

Item #2 Ron Hayes Suggested that people use their club membership cards for identification instead of their AMA card on the Frequency Board. It would be easier to replace a membership card than your AMA card since we can issued locally and we already have the members AMA number on file.

For guests we will need to come up with a different idea such as a guest card. Issued for the day and it would have the guests name and AMA number on the card.

Item #3. Tim Scanlin suggested that we get a trailer that could bring lawn tractors to the field, and put up a mowing schedule. This would make mowing more organized and we could share the mowing responsibilities.
